## Repudiation Of Allegations Re: Paedophile Cunt Head :: 290322 2112

9:12 PM

On the way home, I was informed by schizophrenia that I am about to be shot, resulting from rumours that I am a paedophile. This information surprises me not. But, since I maintain a standard (of "[homework](#)" (and I did fail my "[statistics test](#)"), I thought and was "[advised](#)" to write this background to what I figured was the most incendiary thing I could do.

### Context

Each of the above YouTube auditory verbal hallucinations files was changed from what I posted. The transcripts I included were removed and replaced with what my disease chose. The audio tracks were changed and replaced with re-edits of ONE of the original tracks. The images were also re-edited and changed by my hallucinatory misattributions, so the relevant important graphic designs were excluded. Bullshit you say. Oh yeh, then explain this, once you have confirmed the URLs are satisfactory to you.....

(I bet by the time "you" (??) read this, the video is no longer on YouTube at all. Reason? - it has the word "freemasons" in it (290322 2146). To check, search on "Hearing Voices - Hallucinations - Schizophrenia - (U) Freemasons"

From <<https://studio.youtube.com/video/t4zWzuAue7s/edit>>

**[Below is what is on YouTube \(290322 2141\)](#)** (please look at the accompanying transcript, on the RHS column):

YouTube player interface showing a video titled "Hearing Voices - Hallucinations - Schizophrenia - (U) Freemasons". The video content is an infographic about Schizophrenia, featuring a central brain diagram with the word "SCHIZOPHRENIA" and six numbered sections:

- 1 What is it?** Schizophrenia is a long-term mental disorder involving a breakdown between thoughts, emotions, and behaviour, leading to faulty perception.
- 2 Signs and symptoms** To be diagnosed with schizophrenia a person must display two or more of the following for a significant portion of time during a one-month period:
  - Delusional False personal beliefs resulting from an inability to separate real from unreal experiences
  - Hallucinations (when someone sees, hears, smells, tastes or feels things that don't exist outside their mind)
  - Disorganised speech, vague thoughts, loose association of ideas, thought blocking and creation of new words
  - Grossly disorganised behaviour (e.g. dressing inappropriately, neglecting personal hygiene, social isolation or disturbed behaviour)
  - Negative symptoms (lack of or decline in emotional response, speech, motivation and concentration)
- 3 The cause?** The exact cause of schizophrenia is unknown. It is likely to be the end result of a complex interaction between genetic, bio-chemical, developmental and environmental factors.
- 4 Cure?** While there is no cure for schizophrenia, it is a highly treatable condition. If you suspect someone you know is experiencing symptoms of schizophrenia, encourage them to see a psychiatrist.
- 5 Different types of Schizophrenia** There are four types of schizophrenia that are commonly recognised:
  - Paranoid Schizophrenia: a person experiences delusions, grandiose, or experiences a combination of these emotions
  - Disorganised Schizophrenia: a person is often incoherent in speech and may not have delusions
  - Catatonic Schizophrenia: a person withdraws, moves and negative in attitude, very unusual body posture
  - Residual Schizophrenia: A person experiencing delusions or hallucinations but has no motivation or interest in life
- 6 Onset** Schizophrenia typically appears in late adolescence or early adulthood and usually follows a life-long course.

At the bottom of the infographic, it says: "S.A. Federation contact us: info@safmh.org www.safmh.org 011 781 1850".

Now, regarding these claims that I am a "wanton pedophile cunt". Well, ["let me see know"](#)!!

1. Firstly, that's not how Australians spell paedophile.
2. Secondly, have a read of this: <https://www.youtube.com/watch?v=tiQfkRGuaEw>, and this <https://www.frontiersin.org/articles/10.3389/fnins.2019.00274/full>, and this <https://jamanetwork.com/journals/jamapsychiatry/fullarticle/210920>, and this <https://aifs.gov.au/publications/family-matters/issue-89/childhood-trauma-and-psychosis>
3. The above articles were found searching on "[CSA schizophrenia](#)". I have known it since approximately June 2005. I was told to download child exploitation images in Feb 2004. As soon as I was directed to, by my "Amazing Schizophrenia Voices" (all hacked to death now) (namely, Julia Davis, Ron Thiessen, 'Dave the bricklayer', Clint Dixon, et al...), and I mean instantaneously, I went to the newsgroups, did some searches, and found what they wanted. How did I know what they want? Well, let's just say I am not only the world's second oldest living schizophrenic, but by far the most accurate one when dealing with somatosensory and tactile hallucinations, AVH precognition (autosuggestion, subliminal shit), and estimating what the worst, most lethal, relentless, sadistic, opportunist, mass murdering (teenagers mostly) sociopathic cunt's would likely be into, given 3 or so years of being tortured nearly

every waking moment. I'm not going to bother explaining my torture, or even the repeated directions in 1998, and 2004 of exactly the same nature.

Before ended up having to turn my threat into a manifestly practical reality, I contacted TPG on 12/5/20 and warned them of what I was about to do, in order for them to keep my meta data for proof of what I was was doing. They contacted the Police, and once again, before I got underway with the threat, I spoke to two plain clothes detectives about it. I do not engage in hearsay, so if you want to know what they said, contact me at [hearingvoicesdatabase@gmail.com](mailto:hearingvoicesdatabase@gmail.com).

Now, if you expect me to satisfy who-ever the fuck you are, with some extensive explanation, that seems like a plea for understanding or anything, I say, if you are coming to shoot me or something, then you better fucking figure out how to save 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15 ,16 year old mainly US children from being penetrated, anally raped, most critically and importantly, photographed by some piece of work, so the real paedophiles can boast and publish and so on... yep, figure out, how to prevent it from happening without going ahead and knowing what the fuck you are talking about. Because I won't fucking be here to help you! Then, you can learn how to stop, then prevent, any cunt that has dragged me through the mud, yep, stop them from being schizophrenia, where any child adolescent, young adult and even the rare older adult, gets watched in order to be hated to death, **to get rid of the evidence** that they were being watched and 'talked' to (AVH), by other humans, invariably leading to having their bank accounts raided, because the cunts doing the assisted suicide already know all their bank account details etc.

Don't believe me? Well, here's proof of how they know all schizophrenics banking details. Go to [Auditory Verbal Hallucinations - Schizophrenia Voices \\*\\*triggers\\* \(PTSD\)\\*](#) at approximately the 60% mark. She clearly says **"...what are you writing down Scott?"**

**So I don't feel too compelled to defend myself to you. You fucking buy in, and show the fuck, up, and I'll tell you if I'm a fucking peadophile or not.**

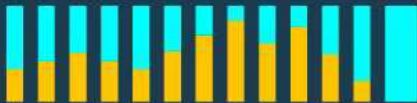

**I'll leave you with this infographic I did in 2015, in between being tortured, and being put on "the trestle" ....**
